INDEPENDENT AUDITORS' REPORT

Board of Trustees
FSM Social Security Administration:

Report on the Financial Statements

We have audited the accompanying financial statements of the Federated States of Micronesia (FSM) Social Security Administration (the Administration), a component unit of the FSM National Government, which comprise the statements of fiduciary net position as of December 31, 2017 and 2016, and the related statements of changes in fiduciary net position for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the FSM Social Security Administration as of December 31, 2017 and 2016, and the changes in its net position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis-of-Matter

Uncertainty Regarding Funded Ratio

As discussed in Note 4 to the financial statements, the actuarial valuation as of January 1, 2014 reported a total accrued liability of \$307,613,000 and the market value of trust assets of \$49,134,000, resulting in a funded ratio of 16%. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 11 be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. This supplementary information is the responsibility of the Administration's management. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The Other Supplementary Information listed in the accompanying table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of the Administration's management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Other Supplementary Information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 13, 2018, on our consideration of the Administration's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Administration's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Administration's internal control over financial reporting and compliance.

Management's Discussion and Analysis
Years Ended December 31, 2017 and 2016

The following discussion and analysis provides an understanding of the Federated States of Micronesia (FSM) Social Security Administration's (FSMSSA) financial performance for the fiscal year ended December 31, 2017. This section has been prepared by management and should be read in conjunction with the FSMSSA's financial statements and accompanying notes.

Administration

The FSMSSA is a successor System of the former Trust Territory Social Security System. It was established by FSM Public Law 2-74 and began its full operation on January 1, 1988. The FSMSSA provides retirement, disability and survivor benefits to the citizens of the FSM.

Under Title 53 of the FSM Code, the authority to administer the FSMSSA is vested to a six-member Board of Trustees, five of whom are nominated by the President and confirmed by the Congress of the FSM. The nominations to the Board take into account the need to have adequate geographical representation and to have representatives from public and private sector employers and employees. The members and officers of the Board of Trustees are as follows:

Jack Harris	State of Pohnpei	Chairman of the Board
Vincent Tafileluw	State of Yap	Vice Chairman
Kohsak Keller	(Deceased)	National Government Member
Nakama Sana	State of Chuuk	Member
Vacant	State of Kosrae	Member
Alexander R. Narruhn	Administrator	Member, Exofficio

The Administrator, who is selected by the Board, is responsible for daily operations as well as supervision of branch managers from each of the four States of the FSM.

Funding

The FSM Social Security System is financed by employer/employee contributions at a rate of 7.5% each, or a combined tax rate of 15% paid to the system every quarter. The FSM National and State governments as well as all private employers incorporated or doing business in the FSM are subject to social security tax. Beginning January 1, 2013, the maximum quarterly taxable wage of \$6,000 is subject to an increment of \$1,000 and every 5 years thereafter for a maximum of \$10,000 until January 1, 2028. Effective January 1, 2013, both the tax rate and the maximum quarterly taxable wage have been increased from 7% to 7.5% (employee 7.5%, employer 7.5%) and from \$6,000 to \$7,000, respectively.

Additional revenues are derived from interests and penalties charged to delinquent taxpayers, and other miscellaneous fees.

**FEDERATED STATES OF MICRONESIA SOCIAL SECURITY ADMINISTRATION
(A COMPONENT UNIT OF THE FEDERATED STATES OF MICRONESIA
NATIONAL GOVERNMENT)**

Management's Discussion and Analysis
Years Ended December 31, 2017 and 2016

Budget

The FSM Public Law 5-120 mandates the FSMSSA to present an annual budget not exceeding 11% of its projected income for the ensuing fiscal year. The budget ceiling for year 2017 based on projected income of \$17.80 million was \$1.96 million. However, as part of management's cost cutting measures, the budget was reduced to \$1.25 million which is 7.0% of the projected income. The actual administrative costs incurred for 2017 was \$1.25 million, or 4.6% of actual income compared to the approved budget.

Highlights

- Contributions collected increased by \$327,776 or 1.8% to \$18.89 million in 2017 compared to \$18.56 million in 2016. The increase in contributions was attributed mainly to a number of employers who paid their current quarterly tax dues on time.
- Benefit payments to members or their beneficiaries increased by \$557,274 or 2.8% to \$20.78 million in 2017 compared to \$20.22 million in 2016. The rise in benefit payments was partly due to the return of retirees' eligibility back to 100% of benefit effective January 2016. Benefits will continue to increase every year as wage earners or their dependents become eligible for benefits.
- 6,104 beneficiaries received social security benefits as of end of year 2017. In August to October 2017, a benefit eligibility survey was held which covered all beneficiaries including those residing outside of the FSM.
- 712 retirement, survivor and disability claims were received, processed and approved in 2017.
- The investment portfolio, including marketable securities, increased to \$50.04 million in 2017 from \$43.69 million in 2016. Investment return was recorded at 14.71% or \$6.6 million.
- Received \$1.0 million in funding from the FSM National Government, which was used to supplement benefit payments.
- Net position totaled \$55.51 million as of December 31, 2017, compared to \$50.67 million as of December 31, 2016, an increase of 9.5%.
- \$712,468 from delinquent accounts were collected in year 2017. Some delinquent employers remain non-compliant and will not pay their delinquent accounts. For this reason, more of these employers are being referred to legal counsel. As of first quarter 2018, \$2.4 million delinquent accounts are with court judgment.
- Close monitoring of expenses led to a budget surplus of 4% in year 2017.
- Received \$312,100 from Prior Service Trust Fund Administration (PSTFA). Prior Service benefits paid in 2017 totaled \$269,702. In October 2017, a 3% COLA was applied to all benefits.

**FEDERATED STATES OF MICRONESIA SOCIAL SECURITY ADMINISTRATION
(A COMPONENT UNIT OF THE FEDERATED STATES OF MICRONESIA
NATIONAL GOVERNMENT)**

Management's Discussion and Analysis
Years Ended December 31, 2017 and 2016

- Effective January 1, 2013, the tax rate and maximum taxable wages have been increased from 7% to 7.5% (employee 7.5%, employer 7.5%) and from \$6,000 to \$7,000, respectively.

Total	<u>\$ 18,891,261</u>	<u>\$ 18,563,485</u>	<u>\$ 17,623,995</u>

Contributions collected increased by \$327,776 or 1.8% to \$18.89 million in 2017 compared to \$18.56 million in 2016, averaging a collection of \$4.72 million per quarter. The increase in collections was attributed mainly to a number of employers who paid their current quarterly tax dues on time.

**FEDERATED STATES OF MICRONESIA SOCIAL SECURITY ADMINISTRATION
(A COMPONENT UNIT OF THE FEDERATED STATES OF MICRONESIA
NATIONAL GOVERNMENT)**

Management's Discussion and Analysis
Years Ended December 31, 2017 and 2016

RETIREMENT FUND, CONTINUED

Benefit Payments:

	<u>2017</u>	<u>2016</u>	<u>2015</u>
Retirement	\$ 13,039,466	\$ 12,576,867	\$ 12,024,918
Survivors	5,548,737	5,447,318	5,381,314
Disability	1,718,405	1,632,870	1,514,583
Lump Sum	201,739	249,433	319,275
	<hr/>	<hr/>	<hr/>
Total	<u>\$ 20,508,347</u>	<u>\$ 19,906,488</u>	<u>\$ 19,240,090</u>

Benefit payments increased by \$601,859 or 3.0% to \$20.51 million in 2017 compared to \$19.91 million in 2016. The increased amount was attributed mainly to the 712 new claims received, processed and approved in 2017. Another reason for the increase was the return of retirees' eligibility back to 100% of benefit effective January 2016. As of December 31, 2017, there were 6,104 members or their beneficiaries who received benefits.

Administrative Expense:

	<u>2017</u>	<u>2016</u>	<u>2015</u>
Budget	\$1,247,513	\$1,276,548	\$1,275,598
Actual	\$1,193,486	\$1,173,775	\$1,208,146
Surplus	\$ 54,027	\$ 102,773	\$ 67,452
% of Budget	4%	8%	5%

Administrative expense increased by \$19,711 or 1.7% to \$1.19 million in 2017 compared to \$1.17 million in 2016. Most expense items remain fairly stable, if not lower, as management continuously monitors its operating expenses. While administrative expense increased minimally, it is still below the approved budget of \$1.25 million by 4%.

Investment Income:

	<u>2017</u>	<u>2016</u>	<u>2015</u>
Investment	\$50,043,606	\$43,693,123	\$43,005,195
Income	\$ 6,597,496	\$ 2,017,284	\$ 469,997
Drawdowns	\$ -	\$ 2,000,000	\$ 2,500,000

Investment income increased by \$4.58 million or 227% to \$6.6 million in 2017 compared to \$2.02 million in 2016. Investment returns was recorded at 14.71% for the year and market value of the investment portfolio stood at \$50.0 million as of December 31, 2017.

(A COMPONENT UNIT OF THE FEDERATED STATES OF MICRONESIA
NATIONAL GOVERNMENT)**

Management's Discussion and Analysis
Years Ended December 31, 2017 and 2016

RETIREMENT FUND, CONTINUED

Other Income:

	<u>2017</u>	<u>2016</u>	<u>2015</u>
Appropriations from FSM NG	\$ 1,000,000	\$ 1,000,000	\$ 2,000,000
Prior Service Reimbursements	47,312	61,334	36,770
Miscellaneous Receipts	34,620	32,073	30,312
Tax Refunds	<u>(23,024)</u>	<u>(23,303)</u>	<u>(20,053)</u>
Total	<u>\$ 1,058,908</u>	<u>\$ 1,070,104</u>	<u>\$ 2,047,029</u>

Other income decreased by \$11,196 or 1% to \$1.06 million in 2017 compared to \$1.07 million in 2016. Income received from Prior Service reimbursement was equivalent to 20% of Prior Service benefits paid. Miscellaneous receipts are fees collected from Social Security cards, employer's ID card, request for allotments and request for change of address.

NET POSITION

FSMSSA Statements of Net Position as of December 31, 2017, 2016 and 2015 follows:

	<u>2017</u>	<u>2016</u>	<u>2015</u>
Assets			
Cash and equivalents	\$ 2,209,739	\$ 3,795,332	\$ 2,922,069
Investments	50,043,606	43,693,123	43,005,195
Other current assets	3,092,264	3,014,141	3,953,009
Fixed assets, net	<u>71,550</u>	<u>69,916</u>	<u>99,865</u>
Total	55,417,159	50,572,512	49,980,138
Liabilities	<u>180,202</u>	<u>181,387</u>	<u>159,623</u>
Net Position			
Held in trust for retirement, disability and survivors' benefits	<u>\$ 55,236,957</u>	<u>\$ 50,391,125</u>	<u>\$ 49,820,515</u>

Net position for the retirement fund (excluding the Prior Service Fund) increased by \$4.84 million or 9.6% to \$55.24 million in 2017 from \$50.39 million in 2016. The increase in net position was attributed mainly to the higher market value of the trust fund assets which was recorded at \$50.0 million as of December 31, 2017. Investment return during the year was registered at 14.71% with a net investment gain of \$6.6 million.

PRIOR SERVICE FUND

The FSMSSA continues to manage the Prior Service Benefits Program for FSM citizens, which is funded by the U.S. Department of the Interior, Office of Insular Affairs. For FY 2017, total funds received from the Prior Service Trust Fund Administration (PSTFA) amounted to \$312,100 while benefits paid and administrative expense totaled \$269,702 and \$53,951, respectively. A 3% COLA was applied to all benefits in October 2017.

Capital Assets and Long-term Debt Activity

At December 31, 2017, FSMSSA's capital assets was \$71,550, with gross amount of \$334,568 of depreciable assets, net of accumulated depreciation of \$263,018. Depreciation for the current year amounted to \$28,265. For additional information concerning capital assets, please refer to Note 2 to the financial statements.

The Administration has no long-term debt as of December 31, 2017.

**FEDERATED STATES OF MICRONESIA SOCIAL SECURITY ADMINISTRATION
(A COMPONENT UNIT OF THE FEDERATED STATES OF MICRONESIA
NATIONAL GOVERNMENT)**

Management's Discussion and Analysis
Years Ended December 31, 2017 and 2016

Conclusion:

The FSMSSA retirement fund net position in 2017 dramatically increased by \$4.84 million or 9.6% mainly due to increased market value of the investment trust fund assets. Investment income during the year was registered at 14.71%, with net investment gain recorded at \$6.60 million. However, the year saw another operational deficit due to imbalances of tax collections and benefit payments including administrative expense. Total contributions collected amounted to \$18.89 million while benefits paid and administrative expenses totaled \$20.51 million and \$1.19 million, respectively, for a cash shortfall of \$2.81 million during the year. The shortfall was funded by subsidy received from the FSM National Government in the amount of \$1.0 million and from the cash balances forwarded from previous year.

The Board of Trustees, and management and staff of the FSMSSA will continue to pursue strategies that will help overcome some of the challenges that the Administration faces. In 2017, we managed to recover \$712,468 in delinquent taxes, a major accomplishment considering the slow economic growth in the FSM.

With increased benefit payments of 3.0% and 3.5% in fiscal years 2017 and 2016, respectively, and unfunded accrued liability of \$258.5M (as of Jan 1, 2014), management endeavors to improve its operation through the following:

1. Collection of delinquent taxes;
2. Spot audits;
3. Conduct periodic eligibility survey of current beneficiaries;
4. Monitor investment performance;
5. Control administrative expenses; and
6. Amendments to Social Security Act.

We would also request the FSM National Government to continue to extend financial assistance to FSMSSA to supplement its operational shortfall so that investment drawdown could be minimized and investment returns maximized.

2018 Outlook

FSMSSA is projecting another operational loss in 2018 and approximately \$3.0 million will be needed in supplemental funding to fully fund the benefits expected to be paid during the year.

Collection for 2018 is projected to grow by 2% as a result of increase in the maximum quarterly taxable wages effective January 1, 2018 from \$7,000 to \$8,000 wages per quarter. Any increase in collection could be partially offset by non-compliance of contribution payments from some employers. Despite the imposition of criminal penalties to employer offenders of FSM Social Security Act as mandated by PL-15-73, there are still some employers who are noncompliant. As of first quarter 2018, the tax receivables totaled \$5.5 million, of which \$3.3 million pertains to closed/inactive employers while the remaining \$2.2 million are for active delinquent employers.

**FEDERATED STATES OF MICRONESIA SOCIAL SECURITY ADMINISTRATION
(A COMPONENT UNIT OF THE FEDERATED STATES OF MICRONESIA
NATIONAL GOVERNMENT)**

Management's Discussion and Analysis
Years Ended December 31, 2017 and 2016

Out of the total tax receivables, \$2.4 million are with court judgments. Management will continue to remain focused on increasing collection from delinquent accounts and to make employers pay their current quarterly tax dues by ongoing spot audits that will include most of the employers in all of the FSM States. Having said this, collections from contributions are estimated to be approximately \$19,269,086 including collection from delinquent accounts.

Meanwhile, benefits grew 3% in January to May 2018. We maintain this growth rate to be reached for the entire year 2018. Benefits will continue to increase in 2018 because of new claims that will be received, processed and approved during the year. Hence, benefits are expected to be \$21,123,597 by end of 2018.

Administrative cost is projected to be lower if not approximately equal to 2017. Management will continue to implement the cost cutting measures being practiced for the past several years.

Foregoing, benefit payments will increase faster than collections. It is projected that approximately \$3.0 million will be needed in additional funding to supplement benefit payments and administrative expenses in 2018. The deficit is anticipated to be funded with cash withdrawals from investments and/or funding from the FSM National Government.

This MD&A is designed to provide our citizens, taxpayers, creditors and other interested parties with a general overview of the FSMSSA's finances and to demonstrate its accountability to funding agencies. Questions concerning any of the information provided in this discussion or requests for information should be addressed to the Administrator, FSM Social Security Administration at P.O. Box L, Kolonia, Pohnpei, FSM 96941.

Management's Discussion and Analysis for the year ended December 31, 2016 is set forth in the Administration's report on the audit of financial statements, which is dated June 19, 2017. That Discussion and Analysis explains the major factors impacting the 2016 financial statements and can be viewed at the Office of the Public Auditor's website at www.fsmopa.fm.

(A COMPONENT UNIT OF THE FEDERATED STATES OF MICRONESIA
NATIONAL GOVERNMENT)**

Notes to Financial Statements
December 31, 2017 and 2016

(1) Organization

The Social Security Administration of the Federated States of Micronesia (FSM) National Government was established by Public Law 2-74, passed on February 8, 1983, and began operations on October 1, 1987, for the purpose of administering the FSM Social Security Retirement Fund (the Fund) through the provision of retirement, disability and death benefits to qualified individuals and their survivors. The Administration is administered under the authority of a six-member Board of Trustees, five of whom are appointed by the President of the Federated States of Micronesia. The Administrator, who is selected by the Board, serves as an ex-officio member. Additionally, the Administrator is responsible for processing, monitoring and distributing benefit claims under the Prior Service Benefits Program (see note 7). Accordingly, the Administrator established the Prior Service Fund to account for activities under this program.

(2) Summary of Significant Accounting Policies

Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, which was subsequently amended by Statement No. 37, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments: Omnibus*, GASB Statement No. 38, *Certain Financial Statement Note Disclosures*, and GASB Statement No. 61, *The Financial Reporting: Omnibus - an amendment of GASB Statements No. 14 and No. 34*, establish financial reporting standards for governmental entities, which includes the requirement for the Administration to present Management's Discussion and Analysis (MD&A). The MD&A is considered to be required supplementary information and precedes the financial statements. In addition, these statements require that resources be classified for accounting and reporting purposes as held in trust for retirement, disability and survivors' benefits. Management of the Administration has determined that per its enabling legislation, net position of the Administration is to be held in trust for retirement, disability and survivors' benefits.

A. Basis of Accounting

The FSM Social Security Administration (the Administration) is accounted for as a Fiduciary Fund Type - Private Purpose Trust Fund and is a component unit of the FSM National Government. The Administration prepares its financial statements using the accrual basis of accounting. It recognizes employee and employer contributions as revenues in the quarter employee earnings are paid. Retirement benefits are recognized as expenses when payable. Expenses are recorded when the corresponding liabilities are incurred regardless of when payment is made.

B. Future Liabilities and Contributions

No recognition is given in the accompanying financial statements to the present value of the liabilities of prospective benefit payments or the present value of future contributions required from employees or employers.

C. Cash and Cash Equivalents

For the purposes of the statements of fiduciary net position, cash and cash equivalents include cash on hand, and cash in checking and savings accounts as well as short-term investments in money market funds with a maturity date within three months of the date acquired.

**FEDERATED STATES OF MICRONESIA SOCIAL SECURITY ADMINISTRATION
(A COMPONENT UNIT OF THE FEDERATED STATES OF MICRONESIA
NATIONAL GOVERNMENT)**

Notes to Financial Statements
December 31, 2017 and 2016

(2) Summary of Significant Accounting Policies, Continued

D. Investments

Investments and related investment earnings are recorded at fair value using quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e. the exit price) in an orderly transaction between market participants at the date as of which the fair value of an asset or liability is determined.

E. Deposits and Investments

The deposit and investment policies of the Administration are governed by its enabling legislation. The Board is required to engage one or more fund custodians to assume responsibility for the physical possession of the Administration's investments. Legally authorized investments are as follows:

- (i) Government obligations - Obligations issued or guaranteed as to principal and interest by the FSM National Government and/or State governments of the Federated States of Micronesia or by the Government of the United States, provided that the principal and interest on each obligation are payable in the currency of the United States.
- (ii) Corporate obligations and mortgage-backed securities - Obligations of any public or private entity or corporation created or existing under the laws of the Federated States of Micronesia or of the United States or any state, territory or commonwealth thereof, or obligations of any other government or economic community which are payable in United States dollars, or pass through and other mortgage-backed securities provided that the obligation is issued by an agency of the United States Government, the FSM National Government, or is rated in one of the three highest categories by two nationally recognized rating agencies. No investment under this heading shall exceed ten percent of the market value of the Fund or ten percent of the outstanding value of the issue at the time of purchase.
- (iii) Preferred and common stocks - Shares of preferred or common stocks of any corporation created or existing under the laws of the Federated States of Micronesia or under the laws of the United States or any state, territory or commonwealth thereof provided that the purchase of such shares shall be considered reasonable and prudent by the Administration's investment advisor at the time of purchase, that not more than five percent of the market value of the Fund shall be invested in the stock of any one corporation, and that not more than ten percent of the market value of the Fund shall be invested in any one industry group.
- (iv) Insurance company obligations - Contracts and agreements supplemental thereto providing for participation in one or more accounts of a life insurance company authorized to do business in the Federated States of Micronesia or in any state, territory or commonwealth of the United States provided that the total market value of these investments at no time shall exceed ten percent of all investments of the Fund.

NATIONAL GOVERNMENT)**

Notes to Financial Statements
December 31, 2017 and 2016

(2) Summary of Significant Accounting Policies, Continued

E. Deposits and Investments, Continued

Deposits:

Custodial credit risk is the risk that in the event of a bank failure, the Administration's deposits may not be returned to it. Such deposits are not covered by depository insurance and are either uncollateralized or collateralized with securities held by the pledging financial institution or held by the pledging financial institution but not in the depositor-government's name. The Administration does not have a deposit policy for custodial credit risk.

As of December 31, 2017 and 2016, the carrying amount of the Administration's total cash and cash equivalents was \$2,534,801 and \$4,152,302, respectively, and the corresponding bank balances were \$2,969,556 and \$4,379,060, respectively, which are maintained in financial institutions subject to Federal Deposit Insurance Corporation (FDIC) insurance. As of December 31, 2017 and 2016, bank deposits in the amount of \$1,032,437 and \$1,009,670, respectively, were FDIC insured. The Administration does not require collateralization of its cash deposits; therefore, deposit levels in excess of FDIC insurance coverage are uncollateralized. Accordingly, these deposits are exposed to custodial credit risk.

Investments:

As of December 31, 2017 and 2016, investments are as follows:

	<u>2017</u>	<u>2016</u>
Fixed income securities:		
Domestic fixed income	\$ 15,393,592	\$ 14,890,932
Other investments:		
Domestic equities	20,041,408	16,420,415
International equities	9,854,224	7,743,952
Real estate investment trust and tangibles	<u>4,754,382</u>	<u>4,637,824</u>
	<u>\$ 50,043,606</u>	<u>\$ 43,693,123</u>

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of debt instruments. The Administrator does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

(A COMPONENT UNIT OF THE FEDERATED STATES OF MICRONESIA
NATIONAL GOVERNMENT)**

Notes to Financial Statements
December 31, 2017 and 2016

(2) Summary of Significant Accounting Policies, Continued

E. Deposits and Investments, Continued

Investments, Continued:

The Administration's exposure to credit risk at December 31, 2016, was as follows:

<u>Standard and Poors' Rating</u>	<u>Domestic</u>
AAA	\$ 8,532,753
AA+	339,721
AA	222,825
A	304,644
A2/A-	401,581
A3/A-	951,585
A3/BBB+	891,905
BAA1/BBB+	243,814
BAA3/BBB	578,023
Not rated	<u>2,424,081</u>
	<u>\$ 14,890,932</u>

Custodial credit risk for investments is the risk that in the event of the failure of the counterparty to the transaction, the Administration will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The Administration's investments are held and administered by trustees. Based on negotiated trust and custody contracts, all of these investments were held in the Administration's name by the Administration's custodial financial institutions at December 31, 2017 and 2016. The Administration's agent is not affiliated with or related to investment brokers. Accordingly, these investments are not exposed to custodial credit risk.

Concentration of credit risk for investments is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. GASB Statement No. 40 requires disclosure by issuer and amount of investments in any one issuer that represents five percent (5%) or more of total investments for the Administration. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement. There was no concentration of credit risk for investments as of December 31, 2017 and 2016.

The Administration categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The Administration has the following recurring fair value measurements as of December 31, 2017 and 2016:

F. Depreciable Fixed Assets

The cost of fixed assets, if greater than \$250, is capitalized at the time of acquisition. Depreciation is provided using the straight-line basis over the estimated useful lives of the respective assets.

Capital asset activity for the years ended December 31, 2017 and 2016, was as follows:

	Estimated Useful Lives	January 1, 2017	Additions	Retirements	December 31, 2017
Motor vehicles	5 years	\$ 101,185	\$ 15,500	\$ -	\$ 116,685

G. Deferred Outflows of Resources

In addition to assets, the statements of fiduciary net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (deduction of net position) until then. The Administration has no items that qualify for reporting in this category.

H. Deferred Inflows of Resources

In addition to liabilities, the statements of fiduciary net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (additions to net position) until then. The Administration has no items that qualify for reporting in this category.

I. Contributions

Contributions to the Fund are governed by the Federated States of Micronesia Social Security Act of 1983 (the "Act"), which imposes a tax on the quarterly income of every employee not currently subject to the United States Social Security Administration or any other recognized social security system. There is imposed on the income of every applicable employee a tax equal to 7.5% of wages effective January 1, 2013.

Maximum quarterly taxable wages are currently \$7,000 effective January 1, 2013. Every employer is required to contribute an amount equal to that contributed by employees.

(A COMPONENT UNIT OF THE FEDERATED STATES OF MICRONESIA
NATIONAL GOVERNMENT)**

Notes to Financial Statements
December 31, 2017 and 2016

(2) Summary of Significant Accounting Policies, Continued

I. Contributions, Continued

Contribution revenues recorded during the years ended December 31, 2017 and 2016 are comprised of the following:

	<u>2017</u>	<u>2016</u>
Government employment	\$ 9,423,914	\$ 9,157,463
Private employment	9,230,403	9,156,577
Judgments	7,551	11,097
Penalties and interest	<u>229,393</u>	<u>238,348</u>
	<u>\$ 18,891,261</u>	<u>\$ 18,563,485</u>

J. Benefit Obligations

Benefits are paid to every person who is a fully insured individual as defined by the Act, has attained sixty (60) years of age, and has filed an application for old age insurance benefits. Benefits are also paid to surviving spouses of deceased workers, subject to eligibility requirements, as long as they do not remarry or work. Eligible children who are not married or are not working may also receive benefits until age eighteen (18) or up to age twenty-two (22) if in school.

Eligible children who become disabled before age twenty-two (22) will continue to receive benefits for the duration of the disability. Disability benefits are paid to qualified workers for the duration of the disability or until retirement or death at which time retirement or survivor benefits become available.

Benefits are paid monthly and are computed on an annual basis of 16.5% of the first \$10,000 of cumulative covered earnings, plus 3% of the next \$30,000, 2% of any earnings in excess of \$40,000, and 1% of any earnings in excess of \$302,500. As of December 31, 2017 and 2016, the minimum monthly benefit payment is \$100.

K. New Accounting Standards

During the year ended December 31, 2017, the Administration implemented the following pronouncements, which did not have material effect on the accompanying financial statements:

- GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*, which aligns the reporting requirements for pensions and pension plans not covered in GASB Statements 67 and 68 with the reporting requirements in Statement 68.
- GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, which replaces Statements No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended*, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, and addresses financial reporting requirements for governments whose employees are provided with postemployment benefits other than pensions (other postemployment benefits or OPEB).

**FEDERATED STATES OF MICRONESIA SOCIAL SECURITY ADMINISTRATION
(A COMPONENT UNIT OF THE FEDERATED STATES OF MICRONESIA
NATIONAL GOVERNMENT)**

Notes to Financial Statements
December 31, 2017 and 2016

(2) Summary of Significant Accounting Policies, Continued

K. New Accounting Standards, Continued

- GASB Statement No. 80, *Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14*, which improves financial reporting by clarifying the financial statement presentation requirements for certain component units.
- GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*, which improves accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement.
- GASB Statement No. 82, *Pension Issues - an amendment of GASB Statements No. 67, No. 68, and No. 73*, which addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, and provides guidance on reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. The provisions in Statement No. 75 are effective for fiscal years beginning after June 15, 2017. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

In November 2016, GASB issued Statement No. 83, *Certain Asset Retirement Obligations*, which addresses accounting and financial reporting for certain asset retirement obligations (AROs) associated with the retirement of a tangible capital asset. The provisions in Statement No. 83 are effective for fiscal years beginning after June 15, 2018. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

In January 2017, GASB issued Statement No. 84, *Fiduciary Activities*, which establishes criteria for identifying fiduciary activities of all state and local governments. The provisions in Statement No. 84 are effective for fiscal years beginning after December 15, 2018. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

In March 2017, GASB issued Statement No. 85, *Omnibus 2017*, which address practice issues that have been identified during implementation and application of certain GASB Statements including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits). The provisions in Statement No. 85 are effective for fiscal years beginning after June 15, 2017. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

**FEDERATED STATES OF MICRONESIA SOCIAL SECURITY ADMINISTRATION
(A COMPONENT UNIT OF THE FEDERATED STATES OF MICRONESIA
NATIONAL GOVERNMENT)**

Notes to Financial Statements
December 31, 2017 and 2016

(2) Summary of Significant Accounting Policies, Continued, Continued

K. New Accounting Standards, Continued

In May 2017, GASB issued Statement No. 86, *Certain Debt Extinguishment Issues*, which improves consistency in accounting and financial reporting for in-substance defeasance of debt. The provisions in Statement No. 86 are effective for fiscal years beginning after June 15, 2017. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

In June 2017, GASB issued Statement No. 87, *Leases*, which establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The provisions in Statement No. 87 are effective for fiscal years beginning after December 15, 2019. Management has yet to determine whether the implementation of this statement will have a material effect on the financial statements.

L. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) require management to make estimates and assumptions that affect the reported amounts of net position and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

M. Risk Management

The Administration is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Administration has elected to purchase automobile and property and casualty insurance from independent third parties for the risks of loss to which it is exposed. The Administration is substantially self-insured for all other risks. Settled claims have not exceeded commercial coverage in any of the past three years.

(3) Net Position Held in Trust

Net position is held in trust to comply with the Social Security Act of 1983. All net position of the Administration is to be used for retirement, disability and survivors' benefits.

(4) Contingencies

The Administration is aware of liabilities of the fund related to retroactive benefit payments for wages not posted to the system due to unmatched social security numbers or names provided by employers, as well as liabilities related to overpayment of contributions. Management is unable to determine a reasonable estimate of the abovementioned liabilities at this time; however, management is of the opinion that the amount is not material to the financial statements as a whole.

The Administration is periodically a defendant in legal actions inherent to the nature of its operations. Management is of the opinion that resolution of any matters existing as of December 31, 2017 and 2016 will not have a material effect on the accompanying financial statements.

(A COMPONENT UNIT OF THE FEDERATED STATES OF MICRONESIA
NATIONAL GOVERNMENT)**

Notes to Financial Statements
December 31, 2017 and 2016

(4) Contingencies, Continued

In January 2014, the Administration obtained an actuarial valuation of the Fund as of January 1, 2014. The valuation reported actuarial accrued liabilities for the Fund of \$307,613,000 and a funded ratio of 16%. As of December 31, 2017 and 2016, the Administration recorded total fund equity of \$55,236,957 and \$50,391,125, respectively, in the Fund, as funds available to fund future benefit obligations. These conditions indicate that the Administration should not increase future or current benefits until a long-term trend of decreasing the unfunded accrued liability is realized.

The Administration is of the opinion that there are outstanding contributions due to the Retirement Fund; however, a reasonable estimate of this amount cannot be made due primarily to noncompliance by employers.

(5) Commitments

The Administration leases office spaces in each of its four locations with leases expiring through 2022.

Future minimum lease payments are as follows:

Year Ending <u>December 31,</u>	
2018	\$ 55,967
2019	55,967
2020	55,967
2021	22,404
2022	<u>9,804</u>
	\$ <u>200,109</u>

(6) Contributions from FSM National Government

The Administration receives periodic subsidies for its operations from appropriations received from the Congress of the FSM. For each of the years ended December 31, 2017 and 2016, contributions received from the FSM National Government were \$1,000,000.

(7) Prior Service Claims

Under the terms of a Prior Service Claim Adjudication Service Agreement between the Social Security Administration of the Federated States of Micronesia and the Trust Territory Prior Service Trust Fund, the Administration is to provide for the processing of benefit claims and to assist in the monitoring of continuing eligibility under the Prior Service Program. The Prior Service Trust Fund Administration (PSTFA) will reimburse the Administration \$8,000 per annum plus an amount equal to eight percent of the total amount of automated and manual benefit payments. Any cost for the Administration personnel who assist in searching and locating prior service documents in cooperation with the Prior Service Administration will be reimbursed on a dollar for dollar basis.

(A COMPONENT UNIT OF THE FEDERATED STATES OF MICRONESIA
NATIONAL GOVERNMENT)**

Notes to Financial Statements
December 31, 2017 and 2016

(7) Prior Service Claims, Continued

On September 15, 2005, an agreement was entered into between the PSTFA Board and the U.S. Department of the Interior to delegate the Board's obligations and responsibility for the enrollees eligible for Prior Service Benefits Program to the Social Security Systems of the Republic of the Marshall Islands, the Republic of Palau, the Federated States of Micronesia and the Retirement Fund of the Commonwealth of the Northern Mariana Islands. Based on the agreement, the Social Security Administration (SSA) of each Government shall be entitled to an administrative fee not to exceed 20% of the share of allocated funds.

The Administration assumed administrative functions and for the years ended December 31, 2017 and 2016, received an allocation of \$312,100 and \$459,645, respectively, from PSTFA of which \$269,702 and \$314,287 were paid as benefits during the years then ended respectively. However, while the Administration accepts the liability for any amounts received, the Administration does not accept the obligation to pay future benefits unless additional funds are received from PSTFA. As of December 31, 2017 and 2016, the amount available for future benefit payments under the Prior Service Benefits Program amounted to \$269,487 and \$280,537, respectively.

(8) Retirement Plan

The Administration established a retirement savings plan effective March 21, 2016. The Administration's retirement plan is administered by a private corporation. All contract employees and other permanent employees with at least three months of service are eligible to participate in the plan. Employee contributions can be made up to 100% of earnings. Employees have the option of electing to receive matching contribution or based contribution, which are both discretionary and subject to change by the Administration on a plan year basis. The Administration's Administrator is the designated plan administrator. During the years ended December 31, 2017 and 2016, the Administration incurred an expense of \$14,470 and \$12,889, respectively, for matching contributions. As of December 31, 2017 and 2016, plan assets were \$63,289 and \$26,403, respectively. Management is of the opinion that the retirement plan assets do not constitute assets of the Administration.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Trustees
FSM Social Security Administration:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Federated States of Micronesia Social Security Administration (the Administration), which comprise the statement of fiduciary net position as of December 31, 2017, and the related statement of changes in fiduciary net position for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated June 13, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Administration's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Administration's internal control. Accordingly, we do not express an opinion on the effectiveness of the Administration's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Administration's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying Schedule of Findings and Responses as item 2017-001.

The Administration's Response to Findings

The Administration's response to the findings identified in our audit are described in the accompanying Schedule of Findings and Responses. The Administration's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Deloitte & Touche LLP

**FEDERATED STATES OF MICRONESIA SOCIAL SECURITY ADMINISTRATION
(A COMPONENT UNIT OF THE FEDERATED STATES OF MICRONESIA
NATIONAL GOVERNMENT)**

Schedule of Findings and Responses
December 31, 2017

Finding No.: 2017-001

Local Noncompliance – Actuarial Report

Criteria: Section 207 of the Administration's enabling legislation (PL 2-74) requires the Administration to obtain a valuation at least once every 3 years.

Condition: The Administration's latest actuarial report is dated as of January 1, 2014. A new actuarial report is required as of 2017; however, none is available.

Cause: The cause of the above condition is failure to timely obtain actuarial services.

Effect: The effect of the above condition is noncompliance with enabling legislation.

Recommendation: The Administration should strengthen procedures requiring that actuarial reports be timely obtained.

Auditee Response and Corrective Action Plan: We disagree with the auditor's finding. The Administration has contracted an Actuary on March 22, 2017 to do the actuarial valuation as of January 01, 2017. Valuation process has been ongoing as of this writing and we expect to receive the final report within the next few weeks. We would like to emphasize also, that this year's valuation includes an Experience Study to validate the assumptions use in the last 2 valuations made in 2011 and 2014. Result of the Experience Study serves as the basis in choosing new assumptions. Hence, delay of the actuarial report for 2017. We agree to the auditor's recommendation, however, and will make sure that the next actuarial valuation which will be on January 01, 2020 will be available in a timely manner.
